INTERNATIONAL CONFERENCE

GENE PATENTS AND PUBLIC HEALTH

Leuven, 27 May 2005

With the support of

GENE PATENTS AND PUBLIC HEALTH

Recent events have clearly demonstrated that the public is very sensitive to the use of patents in the field of genetics.

Discussions arise in particular with regard to the patentability of diagnostic and therapeutic applications based on genes. Concerns are expressed with regard to the possible blocking effects of such patents on access to health care.

The conference offers a survey of the varied and complex issues which occur in patenting diagnostic methods. The conference also provides empirical evidence on well established strategies for using patents and explores new measures for gaining access to patents.

The conference is designed to bring together a number of leading international experts who will discuss the various aspects of diagnostic patents.

The conference should be of interest to a wide audience of academics, practitioners, policy makers, NGOs and to all those interested in patents and health care.

PROGRAMME

8.30 - 9.00	Registration and welcome coffee/tea
9.00 – 9.15	Wellcome address <i>Prof. Paul Van Orshoven (Vice-Dean, Faculty of Law, KULeuven)</i>
9.15 – 9.30	Introduction <i>Prof. Geertrui Van Overwalle (CIR, KULeuven)</i>
Patenting diagnostic methods: Practical, ethical and legal framework <i>Chairperson: Prof. Frank Gotzen (CIR, KULeuven-KU Brussel)</i>	
9.30 – 10.00	The daily practice of diagnostic testing <i>Prof. Gert Matthijs (Centre for Human Genetics, KULeuven)</i>
10.00 - 10.30	The ethics of patenting diagnostic methods <i>Dr. Sandy Thomas (Nuffield Council on Bioethics, London)</i>
10.30 – 10.45	Questions
10.45 - 11.00	Coffee break

11.00 – 11.30	The EPC and the granting policy and case law of the EPO <i>Dr. Daniel Thomas (European Patent Office, Munich)</i>
11.30 - 12.00	Using the EPO opposition procedure as a strategy against patents on diagnostic methods <i>Dr. William Bird (Bird Goen & Co, Leuven)</i>
12.00 - 12.30	Questions and floor debate
12.30 - 14.00	Lunch

Licensing diagnostic methods: Current practices and future options

Chairperson: Prof. Jean-Jacques Cassiman (Centre for Human Genetics, KULeuven)

Contractual licensing in the medical sector

14.00 - 14.30	Licensing policies in the medical sector <i>Dr. Filip De Corte (Johnson & Johnson, New Brunswick – New Jersey)</i>
14.30 – 15.00	The effect of patents on diagnostic research and kit development <i>Dr. Kees Schuller (Innogenetics, Gent)</i>
15.00 – 15.30	Dealing with patent fragmentation: the SARS patent pool as a model <i>Dr. James Simon (ViroNovative, Rotterdam)</i>
15.30 – 15.45	Questions
15.45 – 16.00	Coffee break

Compulsory licensing for public health

16.00 – 16.20	Ex-officio licensing in the medical sector: the French model <i>Mr. Gilles Requena (Institut National de la Propriété Industrielle, Paris)</i>
16.20 - 16.40	Compulsory licensing for diagnostic methods and market dominance: the Swiss model <i>Mr. Christophe Germann (University of Berne)</i>
16.40 – 17.00	The go-between? The new Belgian model <i>Mr. Jérôme Debrulle (Industrial Property Rights Office, Brussel)</i>
17.00 - 17.30	Questions and floor debate

Conclusions

17.30 - 17.45	<i>Prof. Jean-Jacques Cassiman</i>
